EXPERIENCE

Data Analyst Intern @ Switch My Loan

May 2025 - July 2025 // Mumbai

- ▶ Worked on real-world data structuring, integration, and analysis in a fintech environment.
- ▶ Applied SQL and Python for data cleaning, automation, and generating insights for marketing and product teams.
- ▶ Supported data mapping and reporting using SQL JOINS, pivot tables, and visualization techniques.
- ▶ Collaborated cross-functionally, ensuring accuracy, efficiency, and integrity in all analytical tasks.

Technical Associate @ Torque India

October 2023 - August 2024 // Mumbai

- ▶ Managed and maintained the entire e-commerce website and product listings using Shopify, ensuring smooth operations and an optimized user experience.
- ▶ Integrated multiple payment gateways to enhance checkout efficiency and provide customers with diverse and secure transaction options.
- ▶ Implemented WhatsApp automation workflows to streamline customer communication, improve engagement, and reduce manual follow-ups.
- ▶ Coordinated with cross-functional developer teams to design, build, and customize an internal ERP system from scratch aligned with business needs.
- ▶ Automated invoicing processes using Excel-based scripts and templates, significantly reducing manual effort and improving accuracy.
- ▶ Created detailed business and performance reports, delivering actionable insights to support decision-making for operations, sales, and management teams.

Project Engineer @ Wipro Limited

March 2023 - August 2023 // Greater Noida

- ▶ Actively participated in Wipro's comprehensive corporate training programs, specializing in corporate ethics, soft skills, punctuality, and discipline.
- ▶ Immersed in a curriculum fostering integrity, responsibility, and transparency, shaping my professional identity.
- ▶ Championed Wipro's core values, ensuring adherence to high ethical standards and transparency.
- ▶ Acquired soft skills for effective communication, collaboration, and adaptability.
